

# Community Involvement & Workforce Innovation Team

## What We Offer

We can offer advice, carry out projects with you or on your behalf

### Identification of Need

*Helping to assess what interventions or improvements are needed*

### Horizon Scanning & Scoping for Innovations

*Finding what innovations are already available and those that are being developed*

### Adoption and Spread

*Getting innovations into practice*

### Pathway Re-design

*Changing the way in which services are designed & delivered in order to improve quality*

### Real World Evaluation

*Testing whether a new intervention or process works in real life*

### Development and Training

*Developed in response to a need or change, for patients, public and staff*

Cross cutting themes: community involvement; sustainability; workforce; health inequalities; digital
